

Grand Prix updates

Update 1:

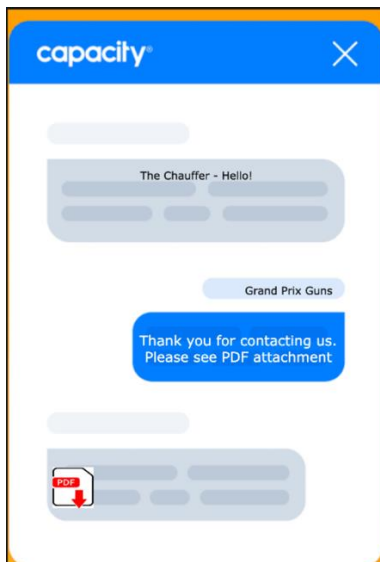

Change Contact us to Chat now

To make the chat now feature work, the player must input in the name box: The Chauffeur
If they put any other name the feature will not work.

The screenshot shows a mobile-style chat form with a blue header containing a WhatsApp icon and the text 'Chat with us now!'. Below the header are four input fields: 'Enter your name' with the text 'The Chauffeur' entered, 'Enter your email address', 'Choose a department' with a dropdown arrow, and a large text area with the placeholder 'Type your message and hit Enter'. At the bottom right is a 'Start Chat' button with a paper plane icon.

If they input The Chauffeur in the name box and click Chat Now – they get an auto response with a PDF attachment.

If they don't input the correct name, nothing happens

Update 2:

Remove payment options for shopping cart – so you can complete a purchase without payment method. Will just need to fill in name and email to complete purchase.

****Limit of only 1 item can be bought at a time – one item per order****

After completing the purchase, the screen displays a confirmation notice with a confirmation #

****The confirmation number is specific to each product****

For example, the product: AB3 Micro Stalker – anyone who buys this will get the same confirmation number: 678FJU436

So if 4 different people each buy the AB3 Micro Stalker gun, all 4 separate orders will have the same confirmation # displayed on their confirmation page: 678FJU436

We will need to attach a confirmation number to each product in the store
